Signature: Mary Yurlina

Date: 6.01.2020

Print Name: Mary Yurlina

Title: Hemp Program Manager

License Number: 1435

Expiration Date: 6.01.2021

# Hemp License Agreement

**Terms and Conditions**—Please read and initial each of the 15 items below

- Licenses are non-transferable and cannot be assigned to another business, individual, or entity.
- This license expires on 6-01-21. All hemp plant material must be planted and harvested before the license expiration date. The licensee must reapply to participate in the hemp program each year.
- All records relating to production, planting, cultivation, harvest and marketing of the hemp crop must be kept for a period of 3 years. The records must be made available to the Department upon request.
- The Department may require reporting of any information or data associated with the planting, cultivation and harvest of the hemp crop. The licensee must submit all reports by the due date specified by the Department.
- Information provided to the Department and data collected by the Department through the hemp licensing program may be publicly disclosed and may be provided to law enforcement agencies without notifying the licensee. Grow site locations may only be shared with state, county, and local government agencies.
- Hemp will only be planted on growing areas included on the attached list.
- Amendments to this licensing agreement are limited to reduction in the number or acres planted within the approved growing area(s) and changes to contact information. Requests for amendment to this agreement must be received in writing within 10 days of the change. No reimbursement of fees shall result from a reduction in the actual number of acres of industrial hemp planted.
- No hemp plants planted in the approved growing area(s) shall be included in other licensed *Cannabis* production programs. No growing area may contain *Cannabis* plants which the licensee knows or has reason to know are of a variety that will produce a plant that when tested will contain more than 0.3% delta-9-THC on a dry weight basis.
- The licensee must submit a planting report and complete a post-harvest survey. Deciding not to plant or having a failed crop is a change to the application that must be communicated to the Department.
- The licensee will allow the inspection and sampling of the hemp crop at any and all times that the Department deems necessary. The licensee will be notified prior to inspection and sampling. During the inspection and sampling the licensee or authorized representative will allow complete and unrestricted access to all hemp plants within the licensed growing area(s).
- If the hemp crop has not been inspected and sampled 25 days prior to the anticipated harvest date, the licensee will notify the Department of intent to harvest.
- For each crop harvest, hemp plants will be sampled by variety. Indoor operations may have multiple crop harvests per year, and each harvest will require sampling.
- Crops testing above the allowable 0.3% delta-9-THC limit on a dry weight basis will be destroyed in a manner approved by the Department. The licensee is responsible for paying all costs associated with crop destruction.
- A signed and initialed copy of this agreement must be returned to the Department with the correct licensing fee. This agreement is not valid until the Department representative signs the agreement and assigns a license number. The Department will provide a completed signed copy of this agreement to the licensee to serve as proof of licensure.
- A fee of \$500 plus \$50/acre or \$0.25/square foot (as reported in this agreement; round up to the next whole acre or square foot) is due with this licensing agreement.

Make checks payable to "Treasurer, State of Maine"

Amount Due: 

I understand that any violation of 7 MRS 406-A § 2231, 01-001 Chapter 274 or this agreement shall be grounds for license revocation. I further understand that the activities described in this agreement may be considered a violation of federal law and that persons growing hemp may be subject to federal sanctions for what may otherwise be considered authorized conduct in the State of Maine. Compliance with this agreement does not exempt licensees from federal prosecution. The Department is not responsible or liable for actions of the hemp licensee under this agreement.
